

## Water Skiing areas

- Water skiing and wakeboarding is only allowed in the two water ski runs between Tewantin and Lake Cooroibah, from 8.00 am-5.00 pm.
- Water skiing is prohibited on the remainder of the river.

# Noosa River Marine Zone

New rules apply

For personal watercraft owners (jet skiers) and water skiers

# Noosa River Marine Zone

New rules apply

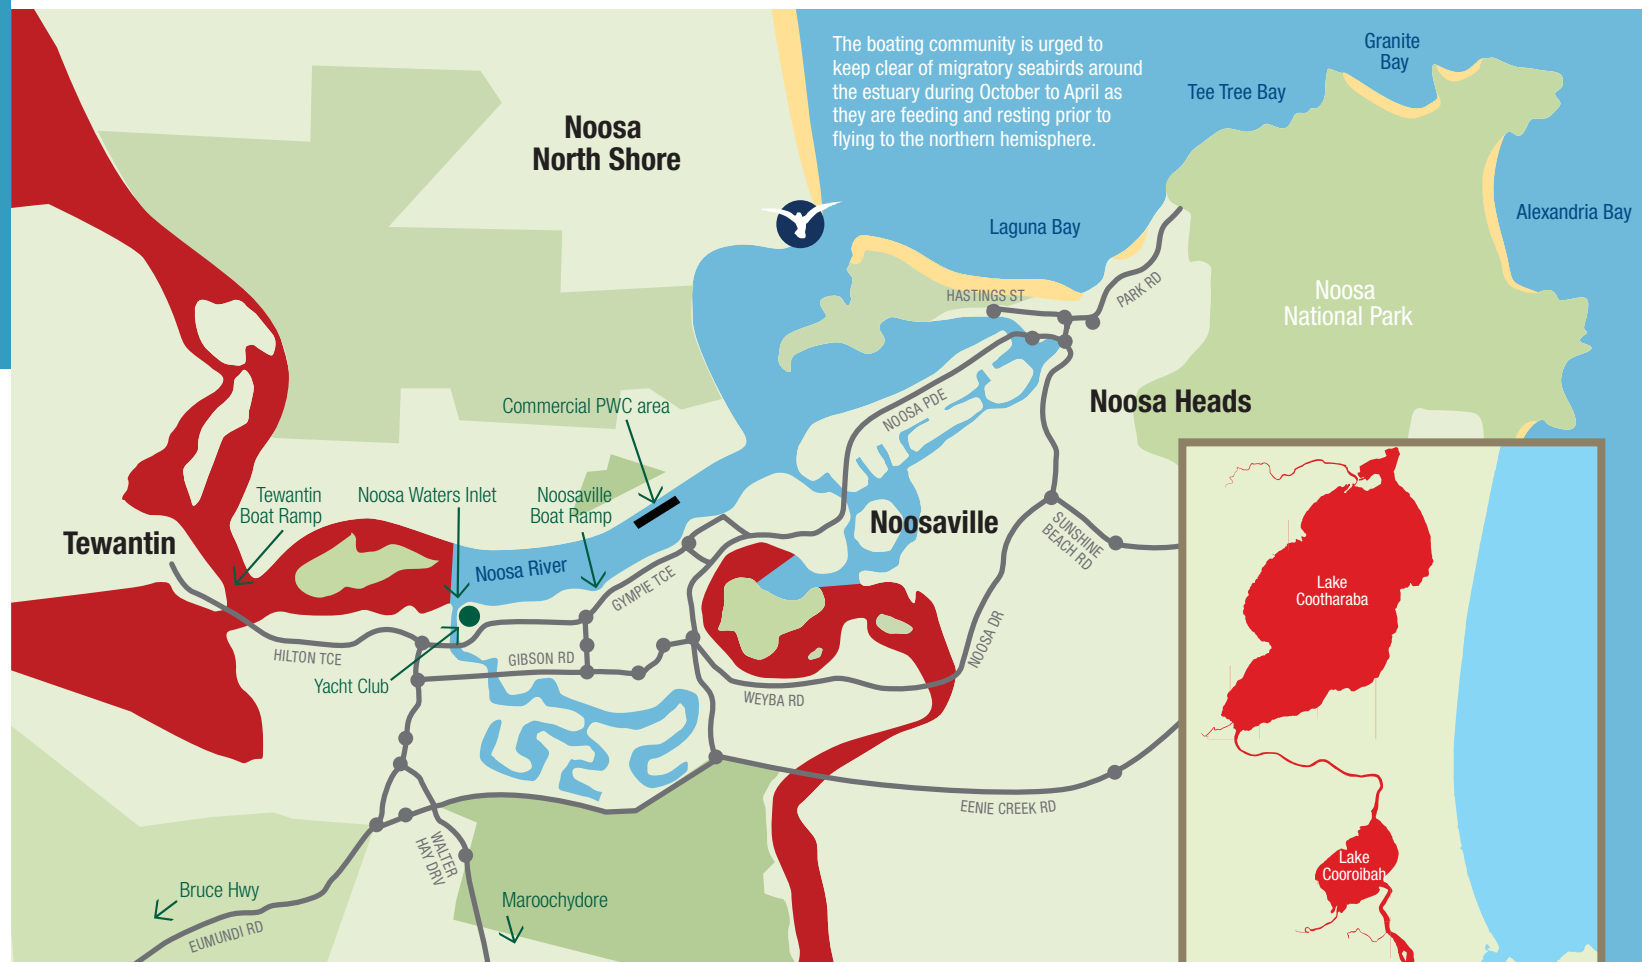

From 1 July 2009, new restrictions apply for certain water-based activities on the Noosa River as part of the new Noosa River Marine Zone. The most significant changes apply to personal watercraft (PWC) activity and water skiing.

The marine zone is a regulation made under the *Transport Operations (Marine Safety) Act* and is enforceable. Penalties of \$300 (or higher over time) apply.

## Personal Watercraft areas (jet skis)

 PWC (jet ski) activity is restricted in this area. PWCs can transit the river channel downstream of the Noosa Waters inlet to the river mouth and out to open ocean. The marine zone does not apply to PWC activity in the open ocean.

 PWCs are not permitted on the remainder of the Noosa River.  
 The commercial PWC area will continue to operate.

The boating community is urged to keep clear of migratory seabirds around the estuary during October to April as they are feeding and resting prior to flying to the northern hemisphere.

**Prohibited on Noosa River:** hovercraft, airboats, seaplanes, freestyling, surfing and wave jumping activities, except freestyling by commercial PWCs in the commercial PWC area.
