

Mary River Catchment Natural Hazard: Bushfire & Acid Sulfate Soils Overlay (Map OM5.4)

Printed: 3 July 2017
Version: Alignment Amendment Commenced 3 July 2017

This map identifies areas that may experience identified hazards. It does not mean that the area indicated will be affected by the particular hazard shown.
A detailed assessment may be required as part of the development assessment process to determine whether the area is affected or not.

This map is a reproduction from Council's GIS, has a scale of accuracy of 1:25 000, although data on which it is based was gathered at mostly finer scales. Precise boundaries may need to be defined by site survey.
