September 2023

Construction Notification – Upper Pinbarren Creek Rd, Pinbarren

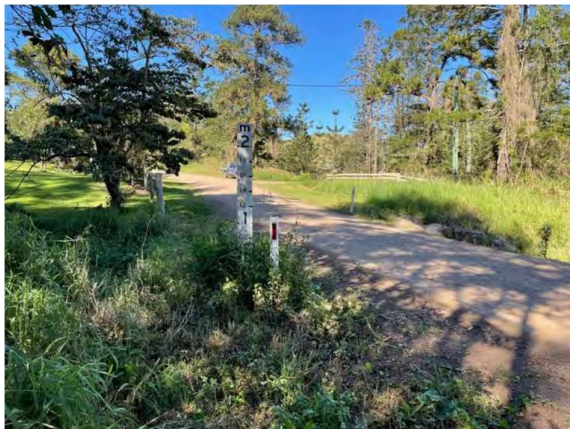

Project summary

Noosa Shire was significantly affected by the 2022 rainfall and flooding event. Council continues its efforts across the Shire to reconstruct essential public assets such as roads and stormwater infrastructure.

The water crossings near the property boundaries of numbers 237 and 363 were impacted significantly and reconstruction is required. The project team has now completed the necessary engineering and design work and has awarded the construction contract.

Overview of works

New culverts will be installed to help withstand possible future disaster events. This will require the road to be demolished, as well as suitable environmental controls be put in place. The construction program will include the use of heavy machinery, delivery of materials, demolition and concreting works.

Damaged culvert near #237

Community impacts

These works are scheduled to commence the week beginning 25 September and finish early December 2023, weather permitting.

Construction will mostly occur Monday to Friday from 6.30am to 5.30pm. There will be typical construction noise during these times

Works will result in disruption to traffic. Side-tracks will be constructed near the sites to allow for continued traffic access. Traffic control will also be used at times to stop motorists for short periods. Please ensure all traffic signs and instructions are followed to ensure the safety of all road users and construction workers.

Funding

The flood recovery effort for Noosa Council is jointly funded by the Commonwealth-State Disaster Recovery Funding Arrangements.

Damaged culvert near #363

Council appreciates the ongoing patience and support from the community as the reconstruction program continues.
