## Cooroy, Cooroy-Belli Creek Road

### Project update

The 2022 flooding event caused damage at several locations on Cooroy-Belli Creek Road.

FKG Civil Pty Ltd (FKG) has been awarded the contract to undertake works near 490 Cooroy-Belli Creek Road. The construction will repair landslide damage on the upslope and downslope of the road.

*Landslide above 490 Cooroy-Belli Creek Road*

Reconstruction will include:

- excavate failed and unsuitable materials
- rock fill and protection
- slope stabilisation
- drainage works
- replace road surface.

The flood recovery effort for Noosa Council is jointly funded by the Commonwealth-State Disaster Recovery Funding Arrangements.

We acknowledge the significant disruption along Cooroy-Belli Creek Road arising from recent bridge renewal and these stormwaters repairs and thank you for your ongoing patience while Council maintains and repairs critical hinterland assets.

### Construction timing

Site establishment and construction will start in February 2024. Construction will take about six months, weather and construction conditions permitting.

### Traffic and community impacts

#### Changed traffic conditions

This section of Cooroy-Belli Creek Road, adjacent to number 490, will operate as a single lane under traffic control while construction is underway. Motorists can expect delays of up to five minutes.

Other reconstruction projects are also starting across the hinterland. Please refer to the map illustrating the location of these works and other nearby reconstruction projects. Motorists are reminded to drive to the changed conditions and follow signage.

#### Work hours

Construction will generally be completed between Monday and Saturday, 7am-6pm.

#### Audible noise and dust

Audible noise and possible dust from construction activities and heavy machinery may be expected. Reversing beepers and flashing lights are a safety requirement and will be used during work hours.

#### Access changes

There are no property access points between the traffic control points. FKG will liaise with adjacent residents about changes to traffic management as the project progresses.
