

July 2024

## Cootharaba Road, Cootharaba

The 2022 flooding event caused landslide damage to a section of Cootharaba Road, Cootharaba.

Reconstruction included:

- 38 piles (900mm diameter and 12.5m long) and 23m soil anchors installed to provide long-term stability
- constructing a retaining wall 70m long and 4.5m high, which was tied to the piles to withstand future slides
- slope rock protection, with 1500m<sup>3</sup> of rock placed
- drainage improvements
- pavement reconstruction
- sealing works.

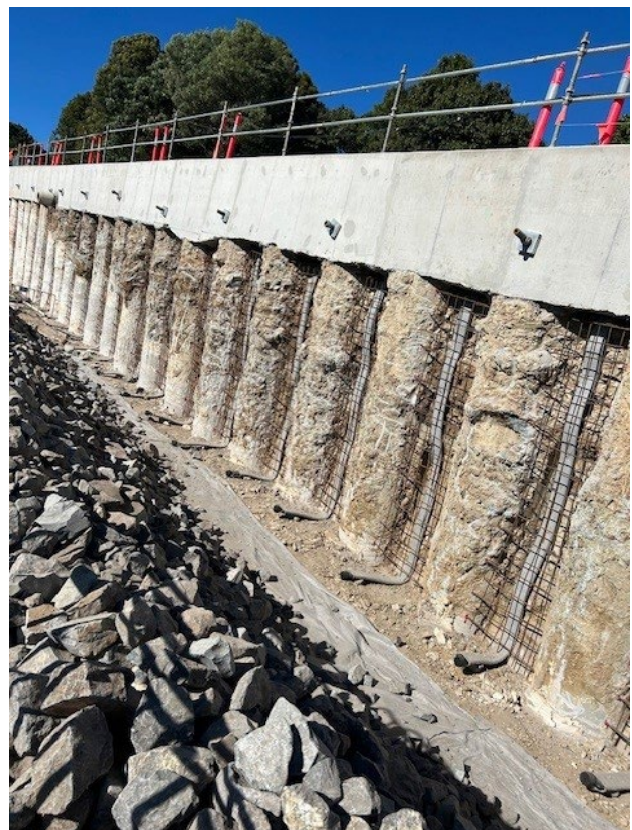

Rock protection

Assistance to deliver the resilience project was provided through the jointly funded by the Commonwealth-State Disaster Recovery Funding Arrangements.

We would like to thank residents and motorists for their patience and understanding while this work was completed.

***Other flood reconstruction works are still underway. We appreciate your ongoing patience while we repair critical hinterland assets.***

Retaining wall
