17 October 2024

## Project Update: Maintenance Grading and Gravel Works – Teewah

Following the completion of the consultation period, Council is pleased to announce that the Teewah community has expressed support for the proposed approach to road grading and maintenance.

### Project Summary

In response to community requests, Council has identified several streets in Teewah for maintenance grading and gravel works. This investment in Teewah's infrastructure will enhance road stability, safety, and accessibility for all residents.

As per the community's request, road base materials will be used to increase resilience against erosion and washouts. Council's approach will remain focused on the areas currently affected by washouts, maintaining the informal character of the existing sand tracks as much as possible.

### Timing

Grading and gravel works will commence on **28 October 2024** and are expected to be completed by early November. Work will take place between 6.30am and 4.30pm daily.

### Property Access and Parking

During construction, property access and parking may be affected for short periods. Residents will be contacted directly if any work is likely to block property entrances.

### Traffic Management

Traffic management measures, including detours, will be in place to ensure the safety of pedestrians and motorists, and to minimise inconvenience for residents and visitors.

Council appreciates your patience and cooperation during this important work.

### Funding

These works are proudly funded by Noosa Council.

### Further Information

For more information, please contact Council.
