## Schreibers Road, Cooran

### Project delivery

The reconstruction work near 269 Schreibers Road to replace the existing culverts with a single-span bridge is being delivered in two stages.

This is to accommodate the upgrade of the watermain, which is critical to maintaining the water supply pipeline for Noosa and surrounding areas.

Significant damage occurred to the culvert structure during the event that compromised the structural support for the existing watermain, and Council is working closely with Seqwater to deliver this vital infrastructure upgrade. The design also provides additional waterway capacity and improves road flood immunity.

It is anticipated Stage 1 works will be completed by the end of 2024, weather permitting. Work on Stage 2 will start in early 2025.

### Project update

The reconstruction work has been progressing well.

Works completed to date include:

- early works to locate existing watermain
- clearing and grubbing
- constructing a piling pad
- concrete piling work, which is the foundation of the new bridge
- sheet piling.

The concrete for bridge abutments will be poured this week, with bridge deck units to follow.

### Traffic and community impacts

#### Traffic changes

The section of Schreibers Road near number 269 must be closed for the duration of construction. The detour will remain in place and motorists should follow signage and drive to the changed traffic conditions.

#### Waste services

Cleanaway continues to pick up the bins of all residents on Schreibers Road. Hazell Bros relocates and returns the bins of impacted residents each week to make sure this happens.

#### School bus services

TransLink, which has jurisdiction over school bus access, communicates directly with the bus company, Polleys Coaches, about changes to the existing route.

Polleys will continue to update residents using the school bus service based on advice from Council to TransLink.

**Council appreciates the ongoing patience and support from the community as the reconstruction program continues.**

*Damage to Schreibers Road*
