Waste Management

Approval must be obtained for disposal of Regulated Waste before disposal. Charges will be determined by Council as part of the approval process.

For all loads of material that were initially accepted and charged as clean Construction and Demolition Waste and subsequently suspected of being contaminated (e.g. asbestos), no refund will be applicable to the customer who chooses to remove the load from site.

Green Waste – vegetation waste arising from maintenance of parks, gardens, and land, and not mixed with other types of waste. Excludes processed timber and wood, putrescible wastes such as fruit and vegetable produce and trunks of trees and plants with a diameter greater than 30cm.

Dead Animals Large - 24 hrs notice required prior to disposal.

Weighed transactions occur and disposal is charged on a unit rate per weight, when a vehicle and/or attachment load is in excess of 500kgs. If a load of waste upon arrival is estimated be in excess of 500kgs, but as a result of the weighing process found to be less, disposal charges shall be calculated using the schematic schedule. Additional individual items charge also apply for nominated waste types e.g. tyres.

Name	Year 19/20 Fee (including GST)	Legislative Reference	GST	Fee Type
------	--------------------------------------	--------------------------	-----	----------

Waste Management [continued]

To be applied to cyclic type services (e.g. 8 or 12 weekly) and for when a resident requires an extra service outside of and in addition to their scheduled frequency. Charge is for up to a including 5000 litres per service. Excess litres (> 5000 litres) will be charged at the extra litres rate.

Volume transactions only (i.e. charging on volumetric quantity rather than weight) occur at sites without a weighbridge, or if a weighbridge is unserviceable at the time of transaction. Additional individual items charges also apply for nominated waste types e.g. tyres.

Weighed transaction occurs to commercial loads over 500kg. All other loads are to be treated as per the schematic for the relevant vehicle size transporting the material.

Disposal charges under the schematic schedule i.e. small, medium and large are a guide only and not intended to cover every possible vehicle configuration. The description of quantity is the basis for charging, not the pictorials of vehicle configuration. Additional individual items charges also apply for nominated waste types e.g. tyres.

Construction and Demolition Waste includes clean and mixed timber.

Development & Planning Fees & Charges

Payment of Fees and Lodgement of Applications

The required fee should accompany the application unless it is clearly subject to a concession as set out below.

Applications not accompanied by the required fees will be considered "not properly made" and Council will notify the applicant advising of the relevant fee to be paid.

Applications that are accompanied by cheques or paid by credit card may be mailed to:

Noosa Council
PO Box 141
Tewantin Qld 4565

General

All Cost Recovery fees for applications and related functions and for giving of information kept by Council have been adopted by Council under Section 97 of the *Local Government Act 2009*. All commercial fees for the provision of services which require a GST payment have been adopted by Council under Section 262(3)(c) of the *Local Government Act 2009*. All fees, unless otherwise specified are GST -exempt.

Subsidy For Community, Sporting and Religious Organisations

Council's policy for waiver of fees for non-profit community organisations recognises the importance of the community facilities which are provided and maintained by non-profit organisations for the benefit of the wider community. Council seeks to provide financial assistance to these organisations on a "needs" basis. Any non-profit, volunteer, charitable, community, sporting, religious organisation not in possession of a permanent liquor or gaming licence is eligible for a 50% reduction in development application fees (including any prelodgement meetings). A request for a reduction in application fees should be made in writing and accompany the application.

The request must demonstrate the eligibility of the applicant as a community, sporting or religious organisation. At the time of lodgement of the application, the organisation must provide verifiable written proof that the organisation is either registered with the Australian Taxation Office (ATO) as a charitable / non profit organisation, or alternatively registered with the Office of Fair Trading under either the Associations Incorporation Act or Corporations Act.

Waiver of Development Application Charges

The Director Environment and Sustainable Development has delegated authority to determine to partially or wholly waive a Development Application Fee where strict application of the scheduled fee is obviously unreasonable for the type of application being received.

Refunds

If an application is withdrawn/lapses before it is decided by Council, a refund will be given depending on the processing stage at the time of withdrawal as follows:

Application Stage 90%

Application Stage (After Confirmation Notice has been issued) 80%

Information and Referral Stage 60%

Notification Stage 30%

Decision Stage 10%

No refund is applicable once a decision has been issued by the Council.

Where a request/application for any matter is withdrawn, an administration fee of \$185 will also be retained

Calculating Application Fees

For developments that are identified as impact assessable and inconsistent under The Noosa Plan a fee multiplier of 3 will apply to the required fee. Where the use and/or works (or part thereof) have been carried out without Council approval a fee multiplier of 2 will apply to the required fee.

Request for an Application to be considered under a Superseded Planning Scheme

To be considered under a Superseded Planning Scheme - A request for an application to be considered under the Superseded Planning Scheme is to be accompanied by a base fee of \$1,347.00 plus the required fee.

Development & Planning Fees & Charges [continued]

Applications for a variation request as per the Planning Act 2016 shall be 125% of the fees for the applicable uses or types of development (included predicted Reconfiguring of Lot) as for a development permit.

Combined Applications

Applications can be lodged at the same time involving more than one development type (e.g., Material Change of Use / Reconfiguring a Lot / Operational Work). Full fees are payable for each development type included in an application.

Material Change of Use within an Existing Building

If an application involves a Material Change of Use within an existing building, the application shall be discounted by 25%.

Undefined Use Applications

Where an application involves a use that is not defined in the applicable Planning Scheme or is not specifically provided for in the Schedule of Fees and the use or application could not reasonably be included in a category that is provided in the Schedule of Fees, Director Environment & Sustainable Development shall determine the fee.

Consultants Costs

The cost of external consultant's fees for any further assessment or advice required by Council in consideration of any application or submission and / or technical report will be charged to the applicant, including re-submissions. The cost must be paid prior to the delegate's or Council's final determination of the application with the applicant to be consulted prior to the engagement of external consultants or specialists.

Appointment for Prelodgement Meeting

This service is to identify and provide preliminary advice on major issues related to a development proposal and to explain application processes to proponents. The appointment will be booked upon lodgement of an application form and payment of the administration fee.

Multiple Units

In calculating the fee for multiple units etc the fee shall be calculated as shown in the following example; Multiple housing fee example for 7 units, the fee is calculated as $(3 \times \$2,781) + (4 \times \$1,124) = \$12,839$

Other Change Applications (Other than for a minor change to a development approval)

An application to change a development approval, other than a minor change to a development approval shall be the fees for the applicable uses or types of development.

Development Lease Subdivision Plans

The assessment of development lease subdivision plans shall be as per reconfiguring a lot fees.

Change to Development Application

Where a change to a development application is made, prior to a decision notice being issued, the fee will be based on the changes made (e.g increased use area, no of lots), the type of development and at what part of the development assessment process the change was made.
